

- ▶ 3G wireless network technology allows you to take payment on the go
- ▶ Built-in contactless allows your customers to pay and go in seconds
- ▶ Advanced tipping functionality helps speed payment and provide your customers with multiple tipping options

## iWL255 3G Long-Range Wireless

LIGHTWEIGHT, COMPACT LONG-RANGE WIRELESS PAYMENTS SOLUTION DESIGNED FOR WHEREVER BUSINESS TAKES YOU!

Global Payments is bringing real mobility to payment with a pocket-sized long-range wireless point-of-sale (POS) solution designed to meet your mobile payment needs – from home deliveries and open air markets to sports halls and entertainment or cultural venues.

Easy to handle and to carry, the iWL255 3G is so compact; it fits in your pocket. This, coupled with the extended battery life, make it perfect for businesses on the move.

With state-of-the-art security standards such as EMV and PCI PTS V2 and V3, the iWL255 3G ensures that your customers' transactions are completely secure. Your customers will also appreciate the vivid full-colour display, which is easy to read in settings with low lighting and even in full daylight. With built-in contactless and the fastest integrated printer – at 30 lines per second – the iWL255 3G improves productivity and efficiency, so you can serve your customers faster.
